SUMMARY

Versatile Forward Deployment Engineer and Full Stack Data Professional specializing in deploying scalable web applications, AI-enabled platforms, and advanced analytics solutions into client environments. Experienced in Python, Django, SQL, React, and Databricks, with a strong track record of translating business requirements into high-performance technical solutions, automating workflows, and driving end-to-end project delivery.

WORK EXPERIENCE

Forward Deployment Engineer (Freelancer) | Independent Client Work | March 2026 – Present

- Led the deployment and integration of AI-enabled Solution and Analytics Platforms into client environments, ensuring seamless onboarding and stable production delivery.
- Managed end-to-end technical implementation across frontend interfaces, backend services, APIs, and cloud-based data synchronization workflows.
- Collaborated directly with stakeholders to convert business logic into scalable technical solutions while optimizing platform performance and usability.
- Worked across Python, Django, React, Next.js, SQL, and OpenAI API integrations to build customized AI-assisted enterprise workflows.

Data Analyst (Contract) | EY - Ernst & Young | Aug 2025 – Feb 2026

- Engineered automated data cleansing and transformation pipelines using Databricks (SQL/PySpark) and Alteryx Designer for high-volume financial datasets.
- Developed audit-ready analytical models and reporting datasets, improving data reliability and reducing manual intervention across recurring workflows.
- Acted as a technical liaison between audit teams and clients, resolving complex data discrepancies and delivering actionable insights under strict timelines.
- Optimized financial data validation and reporting processes while maintaining high standards of data integrity and compliance.

Full Stack Developer (Freelancer) | Jan 2025 – Aug 2025

- Developed JobsPorch, a full-stack job marketplace with real-time analytics using Next.js 15, React 19, Tailwind CSS, ShadCN, and MongoDB.
- Designed recruiter, candidate, and admin workflows with approval pipelines to streamline hiring operations.
- Built secure in-browser video interview recording functionality integrated with Supabase cloud storage.
- Implemented SQL-backed analytics and scalable API integrations to support dynamic application workflows.

Full Stack Python Django Developer Intern | One Team Solutions Pvt Ltd | May 2023 – Dec 2023

- Built scalable Django-based web applications and REST APIs supporting over 5,000 concurrent users.
- Optimized SQL queries and backend workflows, improving application performance by 40%.
- Automated Excel-based dashboards and reporting workflows using Python, reducing manual reporting effort by 50%.
- Worked closely with development teams to deliver production-ready features and maintain backend reliability.

Software Developer Intern | Digital University Kerala | Feb 2022 – Aug 2022

- Developed responsive front-end applications using modern JavaScript frameworks and UI libraries.

- Built and trained machine learning models that improved internal process efficiency by 25%.
- Created Excel-based data visualizations and reporting dashboards for stakeholder presentations.
- Collaborated with cross-functional teams to deliver multiple product features ahead of schedule.

EDUCATION

Master of Science in Computer Science (Specialization: Data Analysis)

Cochin University of Science and Technology (CUSAT) | June 2019 – July 2021

Relevant Coursework: Data Mining, Statistical Analysis, Machine Learning, Data Visualization (Python, SQL, Tableau)

Bachelor of Computer Applications (BCA)

Kerala University | June 2016 – March 2019

CERTIFICATIONS

- Alteryx Designer Core Certified

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Frameworks & Libraries: Django, React.js, Next.js, REST APIs, TailwindCSS, ShadCN

Databases & Platforms: PostgreSQL, MySQL, MongoDB, Databricks, Apache Spark, Supabase

Tools & Integrations: Alteryx, OpenAI API, Clerk Auth, Excel (Pivot Tables, VLOOKUP), Shopify (Liquid, CSV Management)
